IT'S TIME FOR AN AFRICAN ADVENTURE

Sun International's flagship resort is as popular today as it was when it was first built in 1979. Nestled between the Elands River and the Pilanesberg National Park, this picturesque resort is styled in opulent African colours, paired with breathtaking architectural features. Boasting four luxurious hotels, two famous golf courses and many other exciting attractions, Sun City's idyllic setting, service and charm makes you feel like royalty from the moment you arrive to your reluctant departure.

SUN PARK

SUN CITY IS
HOME TO THE
VERY FIRST
SUN PARK

Sun Park is a permanent flexible infrastructure built around a sophisticated grid that enables swift, diverse and cost-effective events

SOPHISTICATED GRID

What makes Sun Park so unique is that it is built around a grid. This grid provides all the amenities you need such as water, electricity, plumbing and WiFi. With all these necessities accessible in one place, your event will be hassle-free and convenient.

FLEXIBLE INFRASTRUCTURE

The permanent modular design of Sun Park is based on internationally proven expo parks. Whether you want outdoor, indoor, multiple or triple-story venues, the infrastructure can be transformed into any configuration with endless customisations to suit all event types. The infrastructure offers a kitchen and ablution facilities.

SWIFT

Sun Park can rapidly bring large events to life. Due to the flexibility of the permanent Sun Park infrastructure and the sophisticated grid that gives you easy access to amenities, it's quick and easy to build any type of event, no matter the size.

DIVERSE

Sun Park offers an exceptional variety of décor options, from flooring choices right down to the last detail. No matter the event type or theme, the customisations are limitless and offer everything you could possibly need to bring even the most over-the-top event to life.

COST-EFFECTIVE

The sophisticated grid and permanent infrastructure save you money by providing all the amenities and facilities you need for any event. With water, electricity, plumbing, ablution and kitchen facilities, there's no need to pay extra to outsource.

The Sun Park at Sun City gives you an opportunity to host an extraordinary event and enjoy an exciting vacation all at the same venue.

GENERAL CONFERENCE INFORMATION

IN ACCORDANCE WITH THE RESORT GROUP POLICY, YOU WILL RECEIVE THE MAIN CONFERENCE ROOM WITH THE EXCEPTION OF THE SUN ARENA (SUPERBOWL), 1 OFFICE VENUE/ BREAKAWAY VENUE (IF REQUIRED) & 1 DINNER VENUE, PER DAY, AT NO COST, EXCLUDING THE PALACE VENUES.

This is subject to a minimum of 10 accommodation rooms being booked per night.

Our Event Manager can obtain permission should your venue be booked at The Palace and you are not a resident.

The following inclusions are standard items in the conference venues:

- 1 x standard screen
- 1 x fixed white board in small rooms & limited number of 4 flip charts and markers in big venues with conference pens and pads
- 1 x podium with podium microphone & PA system (when no in-roof system is available)
- 1 x data projector
- Ice water and mints

Please note that the above is only applicable to conference venues, and is not included when hotel accommodation rooms are used as conference or breakaway venues. Should your meeting room requirements increase, the appropriate charges will apply.

GUARANTEE

The exact number of guests attending a function must be finalised at least 48 hours in advance. This is considered a 'guarantee' and will be the basis upon which you will be charged.

LINEN

With the new modern clean look of the conference venues, no linen is required. For functions, we have a selection of black and white tablecloths and napkins to choose from for your event. Other linen and colours can be sourced and hired on your behalf at an additional cost.

SEATING

Banquet seating will be rounds of ten people per table, unless otherwise specified. For Gala dinners, tables less than 10pax are at an extra cost for waitrons.

OUTSIDE EVENTS

Should there be a report of 40% or more chance of rain, the hotel recommends that the scheduled function be moved indoors to the designated back-up area. Rain call will be at 09h00 for lunch and 12h00 for dinner; decisions will be made by client and Sun City management.

EVENTS CONFERENCE & SPORTS

Experienced Event Managers and Co-ordinators assist in planning and executing a getaway for any group, becoming the central contact point to ensure that all requirements are of a high standard, and are facilitated to create the best experience for delegates. Working closely with the Events and Entertainment team, is an array of support teams at Sun City, that becomes a centre for all requirements to execute a memorable event. For enquiries, please contact our Internal Sales Department, who manage all conference and accommodation inventory, at scenq@suninternational.com

The Sun Arena (Superbowl), Sun Park and Green House are not rain plan venues.

The Décor Department provides various décor themes that range from African Elegant themes to fun or fantasy themes. If you wish to create your own theme, we can custom-design a theme to meet your requirements.

Other services we provide include:

- Pyrotechnics
- Table décor and linen
- Entertainers/musicians to suit any theme.

INFORMATION TECHNOLOGY

Our Information Technology team have qualified engineers who can rig the most intricate network to best facilitate your technology requirements, which includes a simple office set up to a business centre for delegates.

MAINTENANCE

A dedicated team of Maintenance Engineers are available to assist with a variety of needs, from cabling requirements to ensuring that we are able to accommodate requirements of any magnitude. These facilities include cabling, electrical, generator, water requirements, to mention just a few.

EMERGENCY SERVICES

Sun City's Emergency Services team are vigilant in ensuring that, at all times, safety is prioritised. Floor plans and technical plans are to be drafted in consultation with Sun City's Emergency Services team. Where outside production companies are used, a Safe Working Agreement is to be signed that confirms the company operates according to the guidelines set out by South African Law.

SECURITY

Working closely with events, Sun City's Security team can supply Security staff for the various needs of a conference. This includes guards to monitor access control to personal protection for VIPs at a cost. Please enquire about this facility with your Event Manager/Coordinator.

TEAM BUILDING

Sun City has concessionaires that provide team building exercises ranging from drumming, adrenaline, zip slide, water world and game drives.

CORPORATE SOCIAL INVESTMENT

Sun City strives to improve and socially uplift the community in which it operates, both financially and practically. Together with Sun City's Corporate Social Investment team, groups are able to get practically involved with our existing projects and/or identify new projects to give to our community. Our Corporate Social Investment team's finances are audited, to ensure that all donations are accounted for and spent in accordance with your requests. Previous corporate partnerships include building houses, classrooms and other school facilities. At these partnership events, delegates have been practically involved with the actual building as part of a team building experience.

GET LOST IN THE FINER DETAILS

Imagine a place created to inspire possibility: a place where every detail has been considered, every moment measured and every experience uniquely envisioned. Now imagine it as the canvas to your big event.

As part of Sun International's Sunlux Collection of 5-star establishments, you can choose from various venues at The Palace to host a conference, meeting or event which offer an unrivalled 5-star experience:

- The Orchid and Protea meeting rooms are fully equipped to host larger meetings, with each room able to accommodate up to 80 people.
- The Baobab Outlook is situated in the gardens of The Palace, with the lights of The Palace providing a backdrop at night.

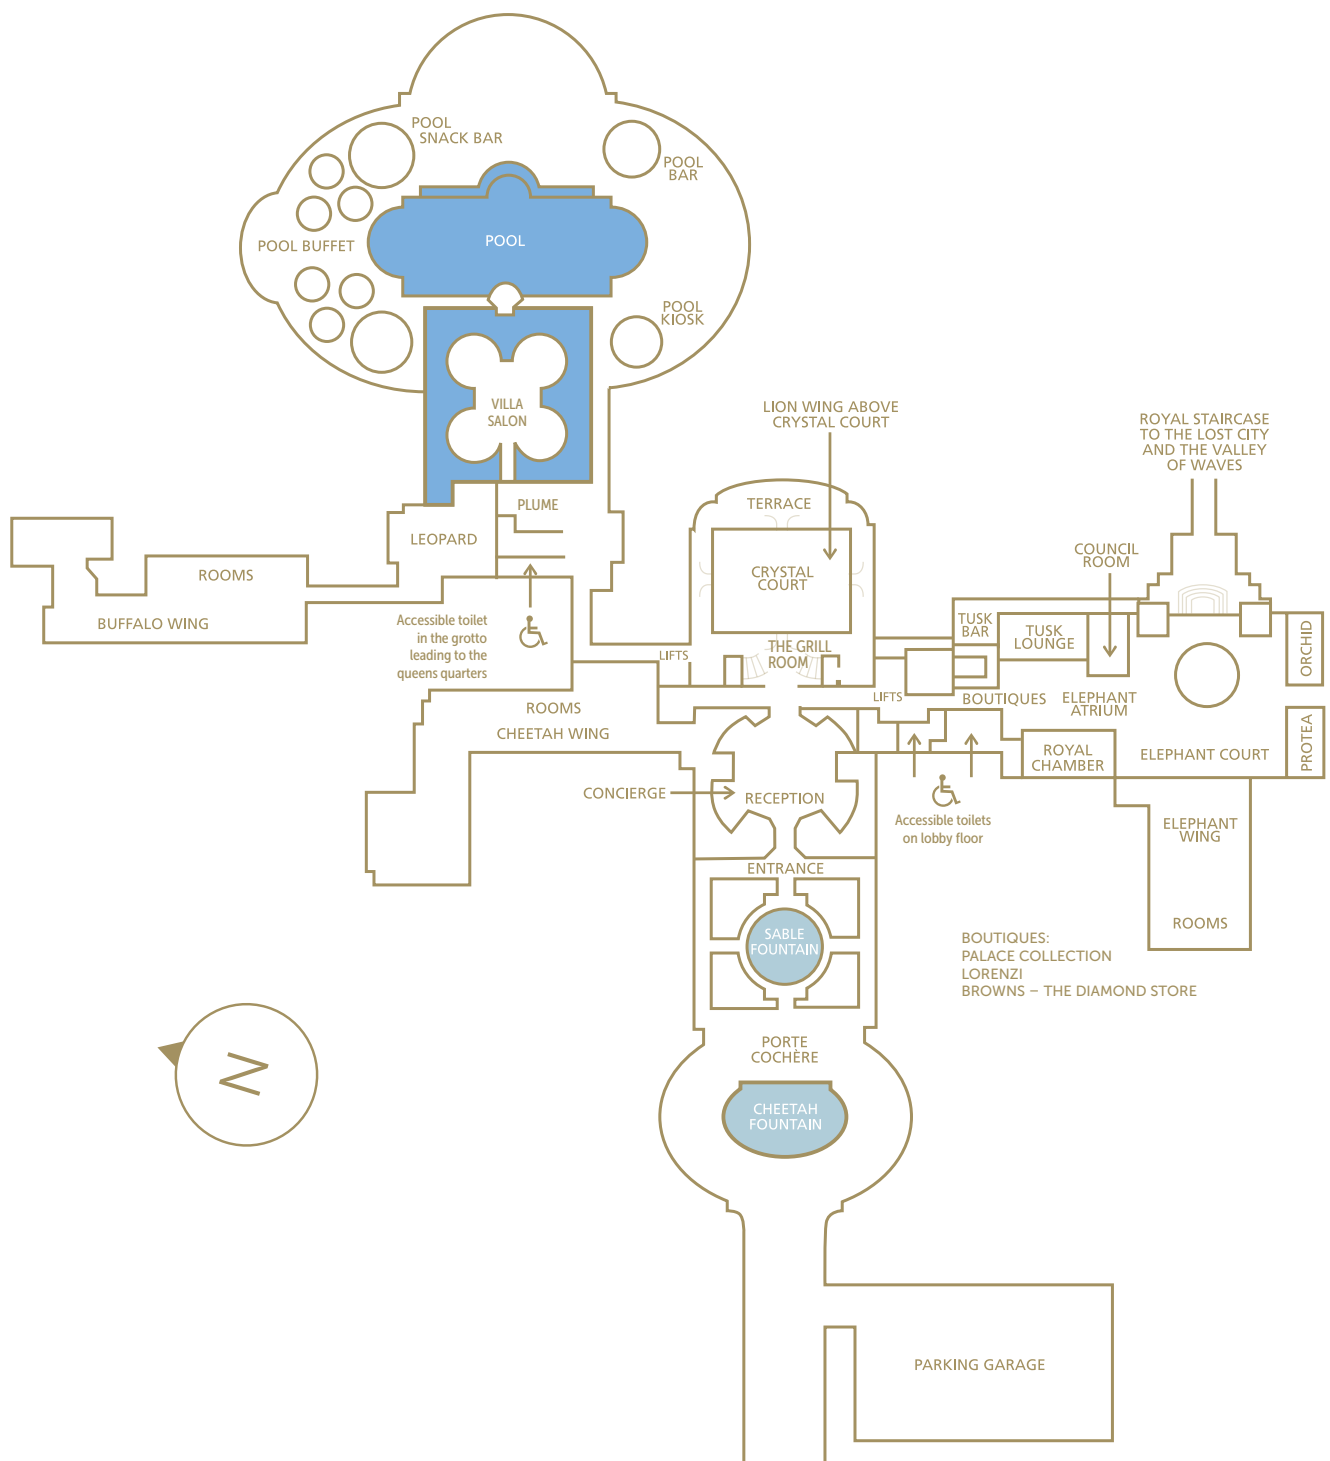

For smaller, more intimate gatherings:

- The Royal Chamber, located in the Elephant Quarter of the Lost City, is perfect for an elegant event with minimal fuss. The venue opens onto the terrace and The Palace gardens.
- The outdoor Wind Chime Chapel, situated adjacent to The Palace and the Lost City Golf Course, lends itself to a relaxed feel.
- Situated at the highest point of The Lost City and overlooking the resort, The King's Tower offers wide views of the Pilanesberg Nature Reserve.
- The Crocodile Lounge opens onto a terrace and overlooks the Lost City Golf Course, lending a spacious feel to the occasion. Functions only on request and approval of management. Furniture remains as is.

Whatever your choice of venue or style of the occasion, The Palace will take care of all the details while you take care of business.

ENVIRONMENTAL MANAGEMENT

ENVIRONMENTAL MANAGEMENT

SUN CITY'S ENVIRONMENTAL MANAGEMENT

The Sun City Environmental Department is tasked with the implementation and management of the ISO 14001 Environmental Management System (EMS). The department consists of three employees, the Environmental Manager, an Environmental Officer as well as the Environmental Training and Awareness Officer.

Due to the size and nature of the resort, the department is further assisted by an onsite Waste Management Contractor with 60 staff, 12 primate management guards and a bee farmer.

ENVIRONMENTAL MANAGEMENT SYSTEM

Sun City implemented an ISO 14001 EMS which was certified by the South African Bureau of Standards (SABS) in October 2014. The ISO system is based on a Deming Cycle Plan - Do, Check and Act.

Planning the Deming Cycle involves determining the scope of the EMS, identifying the aspects and impacts of the operation, understanding the legal parameters and any additional requirements as well as setting objectives and targets.

- Do - includes the development of resources and responsibilities, communication, document control and emergency response.
- Check - is the ongoing monitoring and measurement, compliance audits, non-conformance management and control of records.
- Act - is when the management reviews the system and recommends necessary changes and sets new goals in order to ensure continual improvement.

LEGAL COMPLIANCE

All aspects of the resort's daily operation have various environmental impacts. The majority of the impact can be linked to environmental legislation which requires the department to ensure compliance with the thresholds set in the legislation. All new developments require environmental assessments to determine the impact as per EIA regulations in order to attain environmental authorisations to commence the activity. This includes water and waste licenses.

ENVIRONMENTAL MANAGEMENT

SUN CITY'S ENVIRONMENTAL MANAGEMENT

ENERGY AND WATER MANAGEMENT

Although the utility operations fall within the scope of work done by the Engineering Department, the Environmental Department sets environmental objectives and targets with the Engineering Teams. The teams have implemented various energy and water conservation strategies since 2008 including solar geysers, heat pumps and LED light replacement projects around the resort which have culminated in a decrease of 1 million Kilowatts per hour each month. Further to this water metres were installed around the resort, awareness campaigns were implemented and major leaks were repaired which have saved millions of litres of water per month and still dropping. Almost a third of the fresh water used each day is recycled, while the waste water from the hotel rooms and kitchens, known as black and grey water, flows to the waste water treatment works where it is cleaned, filtered and disinfected to meet irrigation water standard. The water is pumped to the golf courses for irrigation saving the resort around 2.5 million litres of water a day!

GREEN TEAMS

There are 14 green teams on the resort that implement the environmental initiatives. All the management employees in a department or hotel will make up the green team. The purpose is to understand and mitigate departmental and individual environmental impact. As part of this the team complements their efforts with monthly awareness events increasing mindfulness amongst employees and guests.

WASTE MANAGEMENT

Waste management has become a massive industry where recycling is regarded as the norm. There are 34 waste streams generated on the resort of which five are landfilled, 16 are recycled, 10 are hazardous and lastly, three are re-used.

The resort generates around 230 000kg (1650m³) of waste per month of which 140 000kg (1200m³) is recycled. The recycling rate in weight is around 60% and 75%. Sun City has its own landfill site and recycling plant to manage the waste.

All garden waste except palm leaves are composted. The composting facility can generate up to 160 tons of organic fresh compost per month, especially after pruning season when large volumes were processed.

All hazardous waste is responsibly disposed of and given a safe disposal certificate as proof, ensuring the least amount of impact on the environment.

ENVIRONMENTAL MANAGEMENT

FAUNA AND FLORA

The resort is situated next to Pilanesberg National Park and our extended gardens and wildlife areas create suitable habitats for various animals. Impala and warthog roam the golf courses while the gardens are home to more than 280 species of birds.

Our primates are world renowned for their abilities to take food from rooms and guests. They are therefore under the supervision of a primate management team to reduce human-primate interactions.

The animal welfare centre was recently refurbished so that injured or abandoned animals can be cared for and rehabilitated to be released back into the wild. The centre also houses the feral cat clinic where spray days take place to manage the cat population on the resort.

Guest are requested not to purchase any animals along the roads to Sun City. Purchasing animals creates a market for them and fuels the illegal trade specifically in chameleons and tortoises.

TRAINING AND AWARENESS

Educating people and making them aware of their environmental footprint is an enormous task. The department employs a training and awareness officer to educate all employees on the impact they have on the environment through the implementation of awareness events and projects.

As part of this all employees working at Sun City Resort are required to attend Environmental Awareness Training which is a full-day training session. The department also hosts a minimum of eight awareness events annually where guests, staff and local schools get involved to create awareness around a specific topic. These include Arbor Day, Wetland Day and Water Week.

PLEASE NOTE THAT THE INFORMATION IN THIS DIRECTORY IS SUBJECT TO CHANGE.

SUNGLOW

SUNGLOW

SUNGLOW IS SUN INTERNATIONAL'S SUSTAINABILITY PROGRAMME.

It is a new name for a journey of consciousness that first started in 1996. SunGlow serves as an identity, a platform that rallies individual effort and coordinates the various environmental and social initiatives that are in place across the Sun International Group. SunGlow aims to create a world that balances fun with consciousness, through committed and measurable sustainability practices that engage all our stakeholders.

The SunGlow sustainability strategy is underpinned by nine pillars relating to climate change, corporate culture, resource conservation, partnerships, legal compliance, environmental management system, green procurement, performance reporting and community investment.

We are cognisant of our impact on our surroundings and have introduced measures to ensure the best possible management of scarce water and energy resources as well as tackling waste, biodiversity and land management. Sun International is committed to lightening its load on the environment and we continually review our initiatives to check that we are meeting goals efficiently and measurably.

Our operations have profound implications for local economies through job creation and local economic multipliers. We recognise that this is a symbiotic relationship as we depend heavily on the goodwill and stability of the communities in which we operate. Investing in our communities is about investing in tomorrow. Quarterly campaigns focusing on the reduction of energy, water, waste and conserving the living environment, provide a platform for each Sun International property to tailor their sustainability initiatives, synergise communications and engage employees, guests and other stakeholders.
