[1] Overall profits have decreased as a result of the payment of cancellation fee for the management contract and the minority shareholding decreased in the current year.

[2] The unit has performed well during the year resulting in an immaterial loss compared to the net loss for the period last year.

[3] Overall losses after tax have increased.

[4] The increase in management activities is a result of the cancellation fee paid as a result of the management fee restructure for Worcester and SunWest.
